# Report on the Administration of the Tonk State for the year 1344 Fasli. (1936-37)

## CHAPTER—I.

### GENERAL

1 The founder of the State was Nawab Amir Khan, an Afghan of the Buner Tribe known as Salarzai. Early in the 17th Century one Taleh Khan left his home in the Buner Country and took service in Rohilkhand with Ali Mohammad Khan, a Rohilla of distinction. His son, Hayat Khan, acquired considerable land in the Moradabad district and was the father of Amir Khan. The latter was born in 1758 and when 20 years of age, left his home to carve out a career for himself. He first offered his services to De Boigne, who was recruiting for Sindhia's Army, but De Boigne considered that he was too young and inexperienced and declined to enlist him. For the next ten years he served as a mercenary leader wherever he could find lucrative employment, and in 1798 was advanced to the command of large army in the service of Jaswant Rao Holkar. He fought with distinction in the campaign against Sindhia and the British, and took no small part in levying the indemnities imposed on Rajputana and Malwa. Holkar appreciated his fighting qualities and, in order to have his services permanently at his command, agreed to share all conquered territories with him. Sironj was accordingly made over to Nawab Amir Khan by Holkar in 1798, and Tonk and Puarwa fell to his share in 1806. Nimbaheira was added to his territory in 1809, and Chhabra in 1816. On the entry of the British into Malwa, Nawab Amir Khan made overtures to them, and they offered to guarantee him all the lands he had been granted by Holkar, on condition that he abandoned the predatory system he had adopted, disbanded his army and surrendered his artillery, with the exception of 40 guns, to the British at a valuation. Nawab Amir ud-Daula Bahadur agreed to these proposals and they were embodied in a treaty in 1817. To the territories thus granted, *i.e.* the five parganas already mentioned, the Fort and pargana of Rampura, now known as Aligarh, were added by the British Government and a sum of three lakhs was also given to him to enable him to finance the State. He administered the State till his death in 1834, when he was succeeded by his son, Nawab Wazir Mohammad Khan, Wazir ud-Daula. Nawab Wazir ud-Daula did much to consolidate the State, and during the mutiny of 1857, distinguished himself by holding the Tonk fort with a small garrison against the combined forces of the Nawab of Banda and Tantia Topi. In acknowledgment of his services his salute was raised from 15 to 17 guns, and he received a Sanad guaranteeing the succession of his family, according to Mohammadan Law, in the event of failure of

natural heirs. He died in 1804 and was succeeded by his son Nawab Mohammad Ali Khan, who was deposed by the British Government in 1867 and exiled to Benares, where he died in 1895. His eldest son, Nawab Hafiz Mohammad Ibrahim Ali Khan, succeeded him in 1867, ruled the State for 68 years and died at the age of 88 years on June 1930. His late Highness' reign witnessed many changes, and as a mark of the respect and esteem in which he was held by the British Government and as a tribute to his loyalty and character he was granted the titles of G.C.S.I., and G.C.I.E. He was succeeded by his eldest surviving son Nawab Hafiz Mohammad Saadat Ali Khan Bahadur, the present Nawab, who was granted the title of G.C.I.E. on 1st January 1934. His full title is His Highness Sa'id-ud-Daula Wazir-ul-Mulk Nawab Hafiz Sir Mohammad Saadat Ali Khan Bahadur Sa'ulat-i-Jang, G.C.I.E.

#### Situation and Area.

2. The Tonk State is situated partly in Rajputana and partly in Central India and consists of six parganas which are separated from each other by distances varying from 22 to 250 miles, a factor which is of considerable dis-advantage so far as administration is concerned. The parganas in Rajputana are Tonk and Aligarh, lying between latitude 25°45' and 26°30' and longitude 75°30' and 76°15' bounded on the North, East and West by the Jaipur State, and by the Jaipur and Bundi States on the South; and Nimbahera a mass of island territory surrounded by and interlaced in Mewar territory, lying between latitude 25° and 24°15' and longitude 74°15' and 75°. The parganas in Central India are Chhabra, Sironj and Pirawa. The Chhabra pargana lies within latitude 24°30' and 25° longitude 76°30' and 77°15', and is surrounded by the Gwalior and Kotah States. The Sironj pargana, which is the largest in the State, lies between latitude 23°45' and 24°30' and longitude 77°15' and 78° and is surrounded by the Gwalior State on the East, West and North and by the Bhopal State on the South. The Pirawa pargana lies between latitude 24° and 24°30' and longitude 75°45' and 76°15' and is surrounded by Indore on the North, Gwalior on the South and East, and Jhalawar and Indore on the West.

The State has a total area of 2558 square miles.

#### Physical Features.

3. Owing to the fact that the different parts of the State are separated by such distances the physical features vary considerably. The country round Tonk is flat, at a general elevation of about 900 feet, with outcrops of rocky hills and traversed by the Banas river. The soil is somewhat sandy and sub-soil water is limited. The two parganas of Nimbahera and Pirawa are on the Northern edge of the Malwa plateau and the soil is chiefly black cotton. The Chhabra and Sironj parganas are geographically in Central India and the soil is mainly black cotton. They contain large tracts of jungles in which tiger, panther, bear, sambhar and cheetal abound.

#### Climate & Rainfall.

4. The climate of Tonk is dry and healthy, though very hot in summer, temperatures of 115 and even 118 being not uncommon. In winter the temperature rarely falls below 40. The climate of the other parganas is not so extreme.

The average rainfall in Tonk is 29 inches, Aligarh 27, Chhabra 48, Sironj 48, Pirawa 37 and Nimbahera 26 inches.

The rainfall at Tonk from 1st April 1936 to 31st March 1937, was

14.2 inches, Aligarh 15.60; Chhabra 39.10, Sonoj 35.31, Pirawa 36.56 and Nimbahera 24.17

5 The outturn of the Rabi crop was fair in Tonk, Aligarh, Chhabra and Pirawa parganas while it was good in Sonoj and Nimbahera parganas Season & Crops

The Kharif crop was fair in Tonk and Aligarh and it was good in the rest of the parganas

The price of foodgrains was steady, there being no remarkable variation as compared with last year

6 The population of the State according to the Census of 1931 was 3,17,960 (1,64,401 males and 1,52,959 females) as compared with 2,87,898 in 1921. This amounted to an increase of 10%. Of the total population 2,62,675 or 82.76% are Hindus, 44,234 or 13.93% Mohammedans and 10,451 or 3.29% other religions Population

7 The State has a coin of its own, called "Chanwarshai", which is current only in Tonk and Aligarh parganas. It is a silver coin weighing 90 rattas and containing 81 rattas of silver, with small pieces and copper piece Currency

The exchange underwent seasonal fluctuations as usual and ordinarily it would not have been necessary to exercise any artificial control

8 The official year in Tonk begins on 1st November and ends on 31st October Official year

9 The ordinary Revenue and Expenditure for the year, compared with the Budget and the actuals for 1343 Fash, were as follows — Annual Revenue & Expenditure

YEAR	REVENUE		EXPENDITURE	
	Budget	Actuals	Budget	Actuals
FASHI	Rs	Rs	Rs	Rs
1343	22,45,602	22,55,703	19,49,809	19,33,327
1344	23,42,186	24,24,660	19,42,358	19,32,416

The actual figures of ordinary revenue and expenditure were thus somewhat more favourable

10 The birthday of His Imperial Majesty was celebrated on June 9th and as usual the day was observed as a public holiday with a Durbar and Sports. His Highness' birthday was also celebrated as usual by a special Durbar and some prisoners were released according to customs Notable Events

11 The Hon'ble Lieut. Colonel G D Ogilvie, C S I, C I E, Agent to the Governor General in Rajputana, arrived in Tonk on 3rd January and returned on 5th January 1937. He again visited Tonk on 6th August and returned on 7th August 1937. Visits to the State were also paid by — Visits of distinguished guests

- 1 His Highness the Maharaja Rana Bahadur of Jhalawar State
- 2 Mr Jackson, Director of the Plant Institute, Indore
- 3 Mr K G Mitchell, C I E, Road Engineer, Government of India

Natural damages to  
the forest crops.

118. There were only four cases of fire, resulting in petty damages to the forests.

General.

119. The work of demarcation of the forests in Chhabra pargana was continued this year but in consequence of some serious irregularities, the Demarcation officer remained suspended for 6 months and consequently progress was unsatisfactory. Only 19 villages were demarcated in the year under report against 18 demarcated last year comprising an area of 5352 acres or about 8 square miles.

One coupe of 800 Bighas in teak forests in Lateri Range in Sironj pargana was auctioned @ Rs 3/- per Bigha and another small coupe of 49 Bighas in it was felled and the produce sold departmentally as a control to compare the financial results of the two methods of sale with a view to decide the best method to adopt for the future. Deducting the working charges of Rs 90/- from Rs 442/- the proceeds of sale of the produce, the net price, realised amounted to Rs 352/- for 49 Bighas and thus yielded an income of about Rs 7/- per Bigha.

Mr. Syed Zainul Abedeen, who was sent to Balaghat for forest education, was on successful return appointed at Chhabra as a Range officer during the year and another student Mr. Jamilur Rahman Shairani was deputed by the State to the Forest College, Dehra Dun, for training in Ranger's course and a sum of Rs 3,516/- towards his College expenses and fees for the first year was paid.

The Cochineel insect imported last year has very well established itself and is doing its work of destruction in Tonk, and it is hoped that this pargana will soon get rid of this undesirable plant ( Nagphani Thuwar ).

Some 2000 Shisham trees were planted this year by the Department on the bank of the Banas River and the Baroni Road but owing to the scarcity of water the majority died.
